6 Zusammenfassung der Prüfergebnisse
Summary of test results

According to the inquiry the resistance to ammonia corrosion of photovoltaic (PV) modules should be assessed in accordance with IEC 62716:2013 and EN 62716:2013.

The required tests of IEC 62716:2013 and EN 62716:2013 were passed according to its regulations of the pass criteria. The above listed module types have passed all tests of the IEC 61215/EN 61215 and IEC 61730/EN 61730 standards before ammonia corrosion resistance test was applied (see history of certification).

- Introduce to new model types as listed in section 1 based on previously approved model types. The test results are documented within test report CN23M7KD 002 & 005.

The differences are as below:

1. SYMN156TBDxxx are for modules with 156 pcs 182mm x 91mm Topcon solar cells;
2. SYMN144R01TBDxxx are for modules with 144 pcs half-cut 182.2mm x 95.8mm Topcon solar cells;
3. SYMN120R01TBDxxx are for modules with 120 pcs half-cut 182.2mm x 95.8mm Topcon solar cells;
4. SYMN108R01TBDxxx are for modules with 108 pcs half-cut 182.2mm x 95.8mm Topcon solar cells;

Critical materials of SYMN156TBDxxx and SYMN144R01TBDxxx keep the same with previously approved module type SYMN144TBDxxx based on test report CN23M7KD 001. No additional tests need to be considered necessary

- Power range extension for previously approved model types as listed in section 1. Test results are documented in this report CN23M7KD 003 & 006.

- Constructional check and maximum power determination were performed on the representative model type SYMN156TBD625.

- The materials and combinations in below table have been approved on module in main license with certificate PV 50587008. No additional testing is considered necessary.

Object	Manufacturer	Type / model	Technical data / ratings
Solar cell	Sany Silicon Energy (Zhuzhou) Co., Ltd.	SYCN18AT16	N type mono c-Si cell with 16 dotted busbars 182.2mm×95.8mm±0.25mm Thickness=130µm±15µm

The test report is valid only for the materials as listed in Constructional Data Form (CDF) No. CN23PBF2 002.

This test report includes a history of reporting and certification and photo in the appendix.

Summary of test location:

All the tests were performed at TÜV Rheinland (Suzhou) Co., Ltd., which is located at No.14 building and north half of No.10 workshop building, No.525, Yuewang Lingang South Road, Pingqian (Taicang) Modern Industrial Park, Shaxi Town, Taicang City, Jiangsu Province, P.R. China
